Bcc:

Good Evening Class,

I hope you all are doing well and resting easy after your final! 1st, I just wanted to thank you all for being awesome! You were my first intro to Cyber class so I hope that it was fun and enjoyable for you as it was for me. I know it was a bit of an odd setting, but we simply weren't expecting so many of you and that is an excellent problem to have so thank you all!

Since you have finished your competition, there is one final thing that I need you to do. In a business setting, especially one with as many employees as you all had, your boss or supervisor may not keep an eye on you all the time. So when it comes to your evaluation, they may opt to do a 360 feedback eval.

That's my final thing for you. There is a 360 Feedback Form under the Finals folder in Blackboard. At your leisure, please fill it out and submit it before Tuesday at 1PM (Exam time for our class is Tuesday 11-1, I'm still waiting on a location)? The competition is still fresh in your mind, this is the time to jot down your thoughts!

I am also posting a video on Youtube explaining the form and how to go through it. It can be found here: <https://youtu.be/Ky2QJnHrVZs>

If you have any questions or concerns, please let me know. Not just now, but at any point on your journey here and beyond Montreat. 😊 Thanks for being great! I can't wait to see and hear about all the amazing things you all will do!

Thanks,

**Thomas Hill, M.S**
