Bcc:

Hey Team,

Thank you so much for your hard work.

Here's what I need.

We have an auditor coming to check your device, can you create a document with the passwords and everything needed to log into an admin account on your machine.

Failure for the auditor to audit will result in loss of points (meaning, this is not a scam, I, your teacher, actually needs this).

Finally, the company did say, thank you for all of your hard work...but you and your team are fired. ⌣
